INTER-YEAR DRAMATICS FRIDAY

British Men Engineers, Medicos

Prowse and Bercusson to Represent Varsity Against Britons

IN CONVOCATION HALL

The subjects that have been selected for debate by the travelling British debaters this fall, Messrs. Malcolm MacEwen, of Edinburgh University, and Bernard Ungerson of the University of London, who will appear here on Wednesday, Nov. 25th, are topics that are pertinent and offer full opportunity for an interesting debate. They are: (1) That civilization is bound to decay once it reaches the masses; (2) That the elimination of the profit motive would paralyze initiative; (3) That this house would rather live in Moscow than Berlin;
(4) That the modern world is a
race between education and catastrophe; (5) That the merits of the present-day family as a social institution are over-rated. The visitors will take the negative of the first two, the affirmative of the third, and leave to Canada the choice of "side" on the remaining

The Alberta team, composed of Len Bercusson and Harper Prowse, will take the affirmative of the fifth resolution when they clash with the British debaters. Both Len and Harper are well known and capable speakers, and should provide the other half of an interesting and entertaining event.

We have it from a reliable source that a report of this debate will appear in the North American Debater's Manual.

Uninterrupted Feast Enjoyed By Engineers

Police Guard Banquet Room Doors as Science Men Make Merry

a cordon of police to prevent any Med-ling of the evening's activities, the sixteenth annual banquet of the E.S.S. took place in the Macdonald Hotel Friday night.

Shortly after seven o'clock one hundred and twenty members of the society took their places at the banquet tables, and the evening's program got under way. Following the dinner portion of the festivities were the after-dinner speeches and a sing-song.

A toast to the University was given by Art Thompson and was Precambrian area in the world.

replied to by the President of the Much regarding its origin and the University, Dr. Kerr. The president interpretation of its very ancient evening, Nov. 21, according to the received a great ovation from the students for his sympathetic understanding of the recent activities, and it is hoped that the students will follow his advice and let the battle flare abate before the affair becomes one of a serious nature.

a skit, "The Shooting of Dan Mc-Grew" for the lighter part of the evening's entertainment. The stark hundreds of millions of dollars from drama of the north was carried off the small area being mined. Mineral in true realism, and the class are development has been and will conto be praised for their efforts.

Once again the Junior Class failed to appear with a skit. It is to be future custom at the annual ban-

The highlight of the evening was a toast made to Professor Adam by Milt Edwards. A brief biography of this gentlemanly scholar, who, leaves us in retirement at the end of this session, was given. This was replied to by Prof. Adam him-self, and we all will feel the loss of this true friend in our Univer-

SOPH DANCE ANGELICALLY SUCCESSFUL

Freshman Frolic

With cherubs gazing benevolently down from above on the proceed-ings, some three hundred students last Saturday evening danced the annual Sophomore Reception into annual Sophomore Reception into history. Although no co-eds were heard remarking that the decorations were Heavenly, this was one case in which the remark would have been literally true. Everything was there, from the pearly gates (with a slightly metallic glint) to the cherubs playing at hide-and-seek in the clouds. Maestro Milt Edwards and her seraphic musicians, in spite of the fact that they had in spite of the fact that they had no golden harps, dispensed music of such excellent quality that no one noticed that deficiency anyway. Mrs. Kerr, Mrs. MacEachran, Mrs.

MacIntyre and Miss Dodd, patronesses of the affair, received the guests as they came into the hall. The guests were introduced by Doug Sharpe, president of the Sophomore

A notable feature of the dance which other classes may well take as an example to follow, was the strict limiting of the number of tickets sold, so that there was little

overcrowding.

Attention was centred on the decorations by Lew Weekes, from the vast panorama of the world as seen through the pearly gates, which adorned the back wall, to the delicately pensive expressions on the faces of the cherubs which gazed serenely out from every side. There was some discussion as to the origin of the ideas for some of the pictures of the cherubs. Concensus of opinion, however, seemed to point to the cherub which adorned the north-east corner of the hall, who wore a rapt expression (and practically nothing else) while seated on a cloud, as being a fanciful repre-sentation of Editor Frank Swanson having an Idea. The cherub in the south-east corner is supposed to have been drawn from an interest-ing and valuable photograph of George Casper at an Early Age. The excellent quality of the punch

and devastating drought.

mind it so very much.

genius," was the next lamp considered.

The last lamp of success was Faith. Without faith in your fellow man, in your country, in your race, and above all in yourself, you are badly equipped to enter life and the scope, including the community and the country. He stressed the fact that all ills economic are due to human causes, and that if we would take the time to be benefit when the time to be t take the time to be honest with were living his faith today there ourselves, we would see that we would be no sorrow nor ills. Mr. Blue warned us that we must keep are as much to blame as anyone, are as much to blame as anyone, and this would go a long way to-

for us. We must use it to the Macdonald Hotel on Nov. 30th. So

Varsity Thespians Will Make Their Appearance In Annual Presentations

Tickets for One-Act Play Competition Go on Sale Wednesday Morning, Arts Basement

ACCOMMODATION OF CON HALL WILL BE TAXED

All four of the interyear productions to be presented on Friday evening in Convocation Hall at 8:15 are rapidly rounding into shape, according to reports from the Dramatic Society. Tickets are being sold in advance in the basement of the

Arts Building on Wednesday from 8:30 to 5:00; on Thursday and Friday from 8:30 to 1:30. Last year many students had to go without seats, but arrangements have been made this year to handle a crowd of record proportions.

Rehearsals of the four class plays are progressing smoothly. Jack Stewart, director of the Junior Play, after having seen the rehearsals of

after having seen the rehearsals of the various plays, promises that the productions this year are up to the high standard of the Dramatic So-

Alan Porter, stage manager, and George Robertson, electrician, have been working steadily to make the scenery and lighting effective. They and their stage hands do much to make the Interyear Plays successful, and they deserve much credit.

The four plays are held in competition. The "best" play of the evening wins the coveted Jones Shield. The "best" actor and "best" actress are also chosen by the three appointed judges. A popular vote of the audience is also taken.

The Dramatic Society is following the policy used in last year's Spring Play in having co-eds as ushers for their plays this Friday.

The Senior Class is presenting the gripping drama, "Shall We Join the Ladies?" by Barrie. The cast for this play is as follows: Barbara Van Kleeck, Audrey Grigg, Eleanor Aiello, Kay Beach, Margaret McDonald, Audrey Black, Gay Ross, Paul Mayhood, Jack Garrett, D'Al-pul Mayhood, Jack Gar ing and valuable photograph of George Casper at an Early Age.

The excellent quality of the punch served up by the executive is attested to by the fact that a heavy run on the supply forced closing down of the "bar" all too early in the evening, causing a prolonged and devastating drought.

Paul Mayhood, Jack Garrett, D'Alton Ford, Neil Graham, Ron Graham, Bob Lee, Frazer MacDonald, Alan MacDonald, and Steve Ponich.

Alan MacDonald, who so capably directed the Junior Play last year is directing this year's Senior presentation. Hazel Sutherland is the good in the contraction of the property of the pr co-director.

includes: Margaret Aldwinkle, Joan

The Soph Class is enthusiastic over it's chances with the production, "The Oak Settle," being directed by Joan Scharff. The cast is made up of Ruth Ruttan, Peggy Mural, Ed Barlow, Vincent Hyland, and Bert Ayre.

The satire, "The Pot Boiler," directed by Doug Lefroy, is being presented by the Frosh Class. For his play the following cast has been chosen: Frances Gust, Isobel Dean, George England, Don Elliott, Fred Bentley, Colin Ross and Raymond

The Interyear Plays, which each year are presented to the public by the various classes, are under the sponsorship of the Dramatic Society, the executive of which includes: President, Mary Macbeth; treasurer, Ken McKenzie; secretary, Margaret Rea; stage manager, Alan Porter; electrician, George Robertson. They are confident that you will enjoy the productions.

Stages Xmas Plays

UNIVERSITY OF B.C., Vancouver, B.C., Nov. 15 (W.I.P.U.).—
Twenty-seven members of the Players' Club will make their stage debuts next Wednesday night, when they step on to the stage in one of the most varied and interesting programs of Christmas plays in many years. Eugene O'Neill's "Where the Cross is Made"; the last act of the "Merchant of Venice"; a court-room farce, entitled, "Double Demon"; and a comedy, "Lucrezia Borgia's Little Party," by A. P. Herbert, famous Punch cartoonist, will comprise the evening's enter-

they will voluntarily partake of

The zoologist in attendance presented us with a number of inter-esting facts about these snakes. Of the entire group the rattlers are alone venemous. Contrary to popular opinion, the Alberta rattlesnakes are often as large, and sometimes larger, than the Texan rattler. They have weaker fangs, and inject a smaller dose of venom in a wound than does the Texan, but on the other hand their venom is more deadly. None of the snakes have been "defanged"; even those from the circus attacked a mop thrust at them, and illustrated the presence of fangs in quite a vicious manner.

END OF FIRST ROUND!

The meeting called by the President of the Students' Union, Bill Scott, for all the non-resident participants in the snake dance was a decided failure. The only person who attended the meeting was Mr. Scott himself.

He expressed the opinion that this was probably due to the fact that no meeting-time had been indicated in the notice.

We understand that Bill intends to hold another meeting of a similar nature in the near future.

CAMPUS RIOTING

Culminating in a free-for-all fight at the rear of the Medical Building Friday, in which an estimated number of three hundred engineering and medical students took part, one of the worst brawls ever to occur on the University campus came to halt after a hectic day that saw fighting between these two groups of students in the corridors of the Medical Building, in which fighting, eggs and fire hoses were used as weapons as well as the fists of many concerned in the fracas.

Fighting came as a result apparently of the tearing down of the banner of the engineering faculty, which had been mounted on the front of the Medical Building early Friday morning, and the mounting of the same banner, now adorned with the medical skull and crossbones, at the rear of the Medical Building, facing towards the engineering laboratories.

Students were apparently under the impression that, owing to the fact that the incident of over a week ago when the Alberta goal-post was removed from the private car of the Saskatchewan Huskies football team returning from Vancouver was not followed by reprisals on the part of University authorities, any similar incident, even though it occurred on the campus, would also be ignored by University disciplinary authorities.

One result of the trouble was that daily newspapers throughout the country were furnished with accounts of the battle by Canadian Press. Local dailies carried front page stories of the fracas, as well as pictures of the actual battle at its height. The general reading public will, as a result, form they are scarce. Educated people receive higher expectations of large income expectations that canwages, not because they are educated, but because not be realized.

OF A BETTER 'OLE 60 TO IT ~ By Don Steele

Wife-Darling, a moth was in my bathing suit. Husband-Well, judging from the size of your pathing suit, it must have looked well on him.

Betty Smith (at Soph Reception)-I wish I could Editor, The Gateway. have got one of the decorations. Bob Fowler-Oh, well! Cherub, Betty!

. . . . A Westerner entered a saloon with his wife and three-year-old boy.

He ordered two straight whiskies. "Hey, pa," said the kid, "ain't ma drinking?"

'Melvin! . . . Mel-VIN!" "Huh, ma?"

"Are you spitting in the fish bowl?"

"No, but I been coming pretty close."

"I used to sell underthings to nudist colonies." "What kind of underthings?" "Cushions."

"Here comes the parade. Where's mother?" "She's upstairs waving her hair." "Goodness, can't we afford a flag?"

He-I think I've got a flat tire. She-I think that makes us even.

Drunk-Believe it or not, offisher, I'm hunting for parkin' plash.

Officer-But you haven't an automobile. Drunk-Yesh, I have. It's in the parkin' plash I'm looking for.

"She's a chorus girl." "What shows?"

"Practically everything."

Fruit Vendor (yelling in front of his stand)-Twenty cents a doz.!

Bystander (soused)-Twenty cents he don't! Dumb-We're going to give the bride a shower.

Dumber-Count me in. I'll bring the soap. McEwen (loudly)-Now that you're in my arms, I'm going to kiss you until the cows come home.

"My, my," sympathized the friend, "you say your wife's father was killed on your wedding day?" To ing that the mass of people through which the husband nodded: "Yep, poor guy. His out the world do not want war, that shotgun backfired."

Her Father (in the next room)-Moo-oo-oo!

"I want to see some mirrors." "Hand mirrors, sir?"

"Naw, I want one I can see my face in."

But is there anything in an undergraduate liberal arts education that should increase the income of a students concerned was carried to open warfare on person? I sacre, secretly envy the older gen- agree that if there must be war the eration the adventure of the last university-trained men should be another one there is perhaps a sup- need not be war if the world would in believing that a war can be alone will prevent war, and disprevented, but like all other pacifists I am rendered impotent to do anything by the inertia of people who should support a definite movement. The best we can do is

In answer to Todhunter Hogmorton (if that is his real name), writing in the same edition of The Gateway, I would not answer this would-be-funny letter except that the writer throws out one statement that badly needs correcting. says that the world is full of evil men; presumably he means men who desire war. I am perhaps foolish and too idealistic in believthey are not evil, that they are not utterly lacking in "Altruism, Christian Decency and Reason, and, in short, that the world is not an "evil place." Further than this I cannot argue against such face-

Lastly, I will answer Mr. J. D. Wallace's typically military condemnation of my opinions. I say "typically" advisedly, for like most soldiers he is passionate in his defence of military training without having thought the matter out suppose that can partly be blamed on me, however, for not making C.O.T.C. as the C.O.T.C., as he seems Many feel the reply is "yes, but the training to think, but rather I condemned it because of what it stood for-war preparation and war propaganda.

I reiterate that the C.O.T.C. is a out that word potential, and it radiction in your letter. You say, We are really training to save life rather than to destroy it," and ten death tickets every minute." Were of potential killers, however good the purpose of the training may be? You are training to save some lives at the expense of others, and further than that, I fail to see how you are going to save anything by learning how to manage a machine-

But to get to the root of the whole matter, is it necessary that any lives be wasted in war? Is the

One of the axioms of you military men, as I pointed out before, is that the best defence is offence. That means that to protect your country most efficiently (a thing you strongly commend but with which, as you see, I strongly disagree if it means war) you must attack before you are attacked, and that in turn means beginning the fighting. I cannot see how you can reconcile this with your professed dread of war. In all probability you, like a child with a new word subconsciously want to show off your new knowledge; without wishing harm to anyone, you would like a war so you could strut your stuff. I retract what I said about the uniforms, although unless they are all individually fitted each year, I cannot see how they can help but

University of Alberta, November 14, 1936 be misfitting, through no fault of yours. The uniforms themselves may look fine, but the people in them look as a group like the dickens. There are not enough haircuts, there are too few polished shoes, there are too many puttees would sloppily, and half the con-tingent does not know how to stand erect, much less drill really smartly. I realize, however, that that is not your fault, since you have no real authority for the officers over the individuals.

Another weird statement that you make, Mr. Wallace, is that the C. O. In answer to M.J.G., writing in physically and morally." I can The Gateway of Nov. 10, I am very pleased by your letter, M.J.G., though I rather resent the impliation a rearguard action, and without cation in the words, "At last the doubt P.T. is far better physical Jabberwock has said something worth while." I am, however, sorry morals, I consider it positively detrito disagree with you about the mental for anyone to learn the possibility of receiving a lot of sup-port in a campaign to abolish the magic in military training that C.O.T.C. The truth is that the world today is too apathetic to even teaches one to be a "leader of try to do a little towards the pre- men." These things are inherited,

However, considering the C.O.T.C. war, and in their expectation of the leaders, but I believe that there pressed desire for it. I am sincere come to its senses. Disarmament armament begins at home; we will ed, that the C.O.T.C. should be abolished.

Yours truly, X, JABBERWOCK.

Macdonald Hotel, Edmonton, 14th Nov., 1936.

Editor, The Gateway. Dear Sir,-I should be grateful if you would allow me to make a few comments on the report published in your paper dealing with my address to the Political Science Club. I think the impression given by the report is that the Social Credit Party of Great Britain advocates rebellion and revolution in Great Britain. May I make it clear that what we say is that such rebellion is coming, and that it will lead to bloodshed and misery such as is being witnessed in Spain, unless such a mass of public opinion demands a change that the financial powers are compelled to give way and are afraid to appeal to armed

We know that it is entirely unnecessary to nationalize the means of production. Under private enterprise the problems of production have been solved, and granted that the monetary system is brought up to date, there is no reason to interfere with private ownership. Therefore the interests of industry as a whole are identical, and an intelligent combination of industry against finance capital would mean the forcing by pressure of public opinion of the financiers to relinquish their strangle-hold. We look, then, to a hange without bloodshed and with the minimum of upset.

R. HALLIDAY THOMPSON. Ambassador, Social Credit Party of Great Britain.

-AND THERE'S A FROG IN YOUR THROAT-YOUR SHOE HURTS-AND YOU CAN'T MAKE HEAD OR TAIL OF YOUR NOTES - DON'T WORRY-

-: JABBERWOCK:-

How to be Popular in One Lesson.

For the edification of all co-eds, the Jabberwock here presents the grievances he and some of his friends have against the female sex:

1. We loathe those of you who pepper and salt their conversation with little tags such as "bunches of things" and "Oh, pip pip." If you want to catch up on your knitting, keep right on using these. While on the subject of conversation, we might mention that a little more effort on your part would be appreciated. Believe it or not, the kind of man who is worth anything takes you out because he is interested in what you say, rather than in how you dance or how you look. If you would spend more time reading good books and less time painting your finger nails, you might meet the milkman more often. Your conversation is of much more importance than the cut of your jib.

2. Speaking of jibs reminds us of your dresses. We do not like you to dress too daringly. To any man worthy of the name, a halfnaked woman is like a red rag to a bull—she makes him uneasy and uncomfortable, he cannot keep his eyes away from her, and he curses her under his breath. Lady, if, looking at, but the places where present School of Commerce. your dress is too thin or where it is absent. Invest in one or two really well-cut evening dresses, not half-adozen second-rate ones. We do not care how often you wear a dress so long as you look nice in it. And anyway, we do not remember what you wear unless we dislike it.

3. We wish you date desirers would learn how to use a telephone. Quite often we have no money with which to take you out, but would like to come over to your house and sit around. You might even take us out occasionally. Any man who objects to this has a very false pride. But anyway, we get very tired making the first move all the time.

away from the Jabberwock, and for all you know he may be your boy

For your guidance, Miss Co-ed, we have, after careful consideration, drawn up the below list of

The Varsity Hockey Club have definitely decided that they will function this year in the Northern Alberta Hockey League, and a schedule has been drawn up. The wearers of the Green and Gold open the season at Vegreville on Nov. 28, and play their first home game on

Monday, Nov. 30.

The leader of the league will play off with the second team, and the winner will then have to play the winner of the playoff between the third and fourth teams to decide the championship.

At a meeting of the executive of the league, the following officers were elected for the coming season: Hon. President, Dr. Hardy, of the University; President, Dr. W. Shandro, of Vegreville; Vice-President, A. Campbell, of Camrose: Secretary, M. Sanderson, of Wetaskiwin.

PORT C By Bob Lee

An editorial in the Saskatchewan Sheaf, in paying tribute o the remarkable and victorious series just completed by the Huskies, loudly decries the manner in which the U.A. goal-post was recovered.

It seems there is an old American custom in rugby across of a member association, the C. A. H. A., Dr. W. G. Hardy, of the the line that when a visiting squad wins a football game it automatically becomes possessor of the home team's uprights. Kent interview to The Gateway recently, Phillips' boys were only trying to imitate these trimmings to disclosed that the chief business of the Amerk game in purloining the timbers.

While something can be said of this grand custom as adding the entire of fumbles gave the Engineers what looked to be a winning break, but in their enthusiasm they

While something can be said of this grand custom as adding the entire status of an angular to college spirit and fanning the flame of intercollegiate sport, the fact that it was first used across the border to relieve the angular from one who may not in any way capitalize on his ability to fumbled in turn, and so lost their monotony, by spectators who sat huddled in bearskins for four a code which permits him to play quarters, at best, actually serves no purpose other than to help exhibition games with professionals, balance the grounds budget of our neighboring Varsity.

While the Bears and their followers, particularly those in the Engineering and Med faculties, have been doing much to maintain this vague college spirit, other students have not seen similar proposals have been in-Arts-Ag-Com-Law — Halves, Mc-Callum, Thompson, Lee, Canty; quarter, Malcolm; snap, Moreton; insides, Graham, McDonald; midfit to follow their lead. Certain young hockey stars attending this halls find it more advantageous, they think, to join overtown teams instead of patriotically turning out with our own stand, through Dr. Hardy's persist-

Sport Box

Rarely does a Sports Box writer return to The Gateway after graduation to write a column. But unusual things have been happening at the alma mater of Alberta grad-uates during the past fortnight. Just to prove that the alumni is just as interested in what has been going on as the students are themselves—here goes.

Looting of the goal-post by the high-flying University of Saskatch-ewan team was a masterpiece of strategy-for the enemy. It was piling insult upon injury. It was too much. Particularly when the looters boasted about the theft at the University of British Columbia. The insult rebounded. After years of somnolence, U. of A. student spirit revived. The now famous march on the C.N.R. station was only the beginning.

Edmonton read with glee of the chagrin, the dismay, the surprise of the self-satisfied Saskatchewan men when a howling, cheering, enthusiactic mob of green and gold enthusiasts swept down upon them to regain the lost honor-and goal-post of the University. It was great the finest display of student spirit

Men, turn out Mondays, Wednesays and Fridays for practice.

Grunt-Groan-Mitt Tourney For Nov. 28

Preparations are now completed for the big annual interfaculty box-ing and wrestling tournament to be held on Friday, Nov. 28, and the president of the club and wrestling representative, Jack Wickett, assures forward to a banner year. Last season's play was not entirely successful due to the fact that only the beginning of the year there were about sixty enthusiastic mitt slingers, and of these about fifteen or twenty will be matched, so real classy action will be the order of the day when they clash. In the grunt and groan division there will be broken to the plow.

Jack Thompson, Hal Richards,
Jack Lees, Clair Malcolm and
George Walker are the veterans the decide the boys who will travel to the tournament in Saskatchewan. Most of last year's team are not back, and the coaches had to set to work on the Freshmen, but were very fortunate in getting so many of high calibre.

Leading the list of the Frosh invaders is Koppoch, the welterweight threat; he is very scientific, and carries dynamite in both hands. In the middleweight division there are several fast, hard hitting boys, who have what it takes; in this class, McLaren, Pegler, Graham, Patching and Clark will all be battling for a place against each other, and also against the remnants of last seawide open fight for heavyweight honors, as Denny Hogan, Neil Campbell, Dave Frick, and Milton Kyll prepare to go into action.
Murray Byers, the elusive flyweight, will need a lot of stopping
in his bid for honors. The coach
feels certain that these newcomers will ably fill the gap left by Buxton, McLaughlan, Stappels, Pike and Jones. Of course we must not forget the old standbys of the noble art—Bob McCullough, Reg Dowdell, Denny Hogan, Abe Olfman and Lou Goodwin will all be seeing and the spectators of the processing of the seeing and the spectators of the see that the see that the seed that the see Regarding Amateur Sport and Lou Goodwin will all be seeing action, and the spectators can be assured of a first-rate performance. The wrestling coach is not just certain whom he will send into the "squared circle," but says that it can be taken for granted that his boys will produce four or five thrill packed hours.

VANCOUVER, Nov. 16 (W.I.P.U.) -Plans have been made for a fourgame Hardy Cup series with Alberta and Saskatchewan next year.

Plans Next Year

Negotiations were made easier by the fact that most of Saskatchewan's Student Council plays on the Husky football team. Only consent by the various faculty councils is needed now to make the series definite.

The idea is that Varsity goes to the prairies for Thanksgiving weekend, playing games on Saturday and Monday. They get a guarantee of \$450, the first \$150 of the gate and 30 per cent. of the remainder.

The winner of a Sask-Alta series Sunday, Nov. 8th, the first cross-country run was made to White 27 and 30. Their guarantee is \$600, Mud. Due to the particularly fine together with the first \$200 of the weather, the cabin was dispensed gate and 30 per cent. of the rewith and hot soup and coffee were mainder.

The Saskatchewan boys suggested an intercollegiate track meet with U.B.C. in conjunction with the footas there is snow, will be ready for ball, but no decision was reached
